CEO REPORT FOR APRIL 2020

WHO declared the Corona virus to be a global pandemic on 30TH January 2020.. On that very day, the first case of Corona virus was reported in India - a student from Kerala who had come from China.

DIR-India started classes on Corona virus for our Health Promoters on January 20th, after the news from Wuhan, China caught headlines all over the world. In the first week of February, frequent committee meetings were held, both in Janta Colony and Dhanas, to educate the Basti people and make them aware of the deadly virus which had already taken so many lives in Wuhan, China. As well as making the community aware of the spread of COVID-19 to other countries across the globe, and killing people in millions. These corrective steps were taken to sensitize the community.

Health Promoters made charts and posters on the COVID-19 Pandemic, to give a photographic image of the disease, which made a deeper impact on the Basti crowd. Emphasis was laid on the prevention of the disease by educating them on the importance of repeatedly hand washing, covering the mouth and nose by wearing masks in public places and maintaining a social distance of minimum six. As we know, COVID-19 can live on steel and plastic surfaces for up to 72 hours and in the air for half an hour to three hours. The main cause of the spread of the virus is through direct contact with infected people.

The first case of COVID-19 was reported in Chandigarh on March 19th, when a 23-year-old woman returned home from London, UK. This raised alarm in the Tricity area as three members of the same family got infected and thereafter the number of infected patients kept increasing.

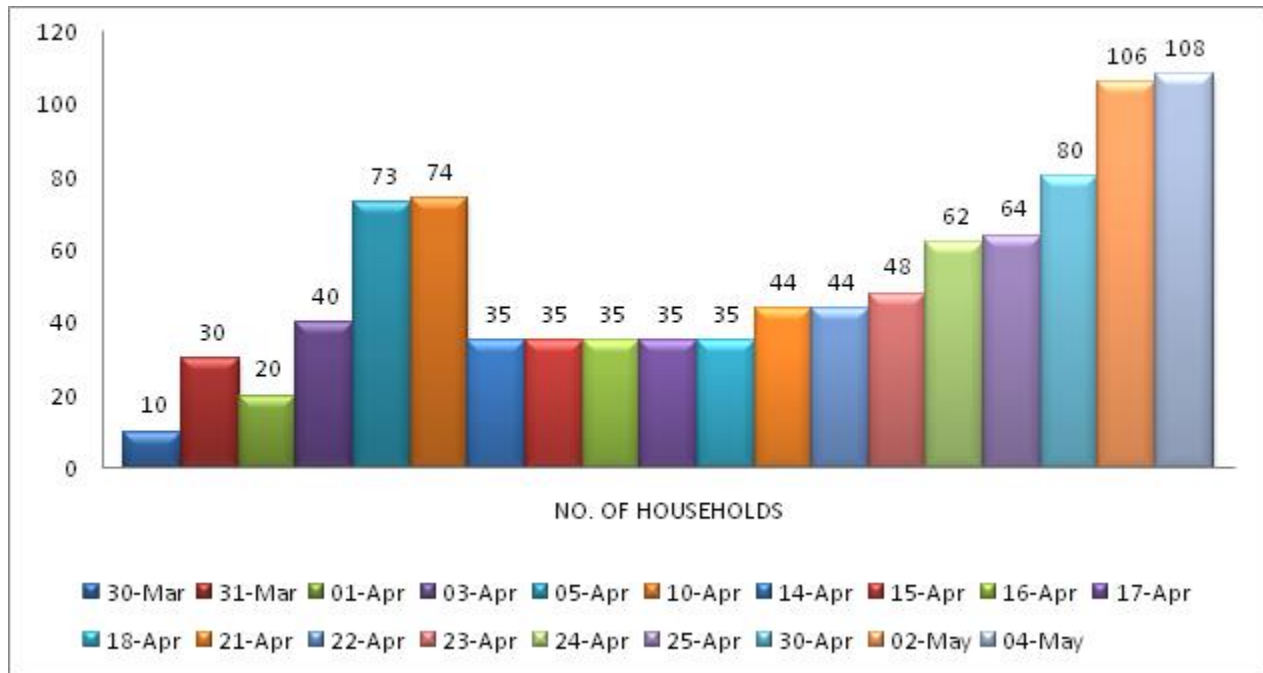

DIR India shut down on March 20th after Punjab declared complete lockdown. On March 24th Prime Minister Narendra Modi declared a complete lockdown for the entire country, with imposed curfew.

Our medical team and senior staff had already identified families who were daily wage earners. These would lack an income during the lockdown and our main concern was towards malnourished children and pregnant mothers.

COVID-RELIEF ACTIVITIES started at DIR India on March 30th. These activities were made possible due to support of our donors. The COVID-19 donation accounts are maintained separately, and this money is only used for buying groceries for families at risk of malnutrition. Hampers made of rice, wheat flour, lentils or daals, soya bean nuggets, sugar, tea leaves, salt, spices and cooking oil were distributed to families while maintaining a safe social distance. The complete details of daily hamper distribution date are covered in the following pages of this report.

We are extremely thankful to the many who have contributed without even visiting or knowing the work of the organization. As CEO, I am grateful to all our friends and relatives for generating faith and trust in DIR-India, that we could stretch out our hands to feed approximately one thousand families here in Janta Colony, Punjab.

STATISTICS OF COVID-19 RELIEF RATION DISTRIBUTION

DISTRIBUTION DETAILS

Sr.No .	Goods Distributed on Dated	No. of Families	Ingredients	Item Name	Quantity	Rate per Unit	Amount
1	30.03.2020	10	5KG RICE, 1 KG DAAL, 1 LTR REFINED OIL, 1 PACKET SALT, 1PACKET HALDI, 1 PACKET RED CHILLI POWDER, 1 KG SUGAR, 1 PACKET TEA LEAVES, 2 CAKES OF BATHING SOAP	RICE	5KG	35.00	175.00
