CEO REPORT

DIR India has earned a good reputation among professional institutions in the country. It is encouraging to see young students from a reputed institution choosing our organisation for their internship program.

Rosalea Matta, a student of Bitz Pillani, worked for three weeks.

She completed two projects, one with SWAD School children. She designed a game by creating placards. The game was exciting, as it helped build knowledge, and it was entertaining for the children.

Her second project involved sewage covers provided by the Punjab Municipalities, which are made of cement. Most of the drainage covers were damaged. This creates an unhygienic source for harbouring dengue, malaria, and many other water-borne diseases like the cholera, Typhoid, diarrhoea, and dysentery are common in slum areas.

Rosea designed a cover made from polythene bags with a mesh. The manufacturing cost is less, and they are hardy, made out of waste products.

CEO REPORT

28th May is World Menstrual Day. It was celebrated in collaboration with Versatile Enterprises Pvt. Limited.

Dr.(Col) Bindoo Nangia was the Chief Guest, and her husband, Dr. (Col) Rattan Nangia, Pathologist, was the guest of Honour.

The Senior Executive Director of Versatile Enterprises Pvt.Ltd, Mr Kapil Seth, and his wife, Poonam, along with CSR Head Geetanjali Bakshi from Versatile Enterprises Pvt.Ltd attended the function.

Versatile Enterprises Pvt.Ltd donated two thousand reusable sanitary napkins. We chose an audience of young girls living in Janta Colony Basti as they are the victims of various gynecological diseases due to unhygienic practices.

Versatile Enterprises Pvt.Ltd donated 2000 reusable sanitary towels. An audience of 101 young girls was given 4 sanitary napkins each.

Dr Bindoo gave a talk on the issues of mensuration and the importance of personal hygiene, especially during menstruation.

Dr Bindoo concluded with a question of why ?

“World Menstrual Day” is on 28th

May? After a pause, she explained the menstrual cycle is of 28 days, hence the date 28th.

The blood flow is for 5 days, and May is the 5th month of the Roman calendar which explains the month chosen is May.

ACADEMICS

May marks the rise of summer, bringing intense heat and dry hot winds. In academics, the following topics were explored:

- **The human cell** is recognised as the basic functional unit of life.
- **Diarrhoea and its management**- a waterborne disease characterised by frequent loose watery stools. Due to rising temperatures, a spike in diarrheal cases was observed in areas such as Janta Colony and Dhanas.
- **Dysentery and its management**- A gastrointestinal infection marked by severe diarrhoea accompanied by blood in the stool.
- **COVID-19**: India has seen a resurgence in COVID-19 cases in May. In late May, 2700 active cases were reported in India, in which high fever and sore throat are considered as one of the early signs. Preventive measures such as using face masks in public, using hand sanitisers and maintaining social distancing were discussed.

MEDICAL TRAINING

ACADEMICS

May marks the beginning of summer, bringing both intense heat and occasional rain. As temperatures rise, the risks of dehydration, diarrhoea, and electrolyte imbalance also increase. These health concerns emphasise the importance of proper nutrition and hydration during this season.

A healthy diet should focus on seasonal fruits and vegetables, whole grains, and proteins. It's essential to stay hydrated while limiting processed foods, sugary drinks, and excessive salt intake.

Considering these factors, the topics covered in May include:

- The importance of electrolytes in our daily lives
- The impact of electrolyte imbalance on health
- Diarrhoea and the significance of diet during this condition
- Dietary management for diarrhoea, including foods to eat and avoid

NUTRITION TRAINING

ATTENDANCE REPORT OF CHILDREN UNDER THE NIPP PROGRAM ADOPTED BY DONORS

TOTAL	RED ZONE	YELLOW ZONE	GREEN ZONE
8	5	2	1

- The progress report of the sponsored children, which includes the health status of the adopted child, is sent to each donor every month.
- **A total of 20 children of the project Alambana (children of rag pickers) are sponsored. These children are also part of the NIPP program.**

DETAILED PROGRESS REPORT OF NIPP:

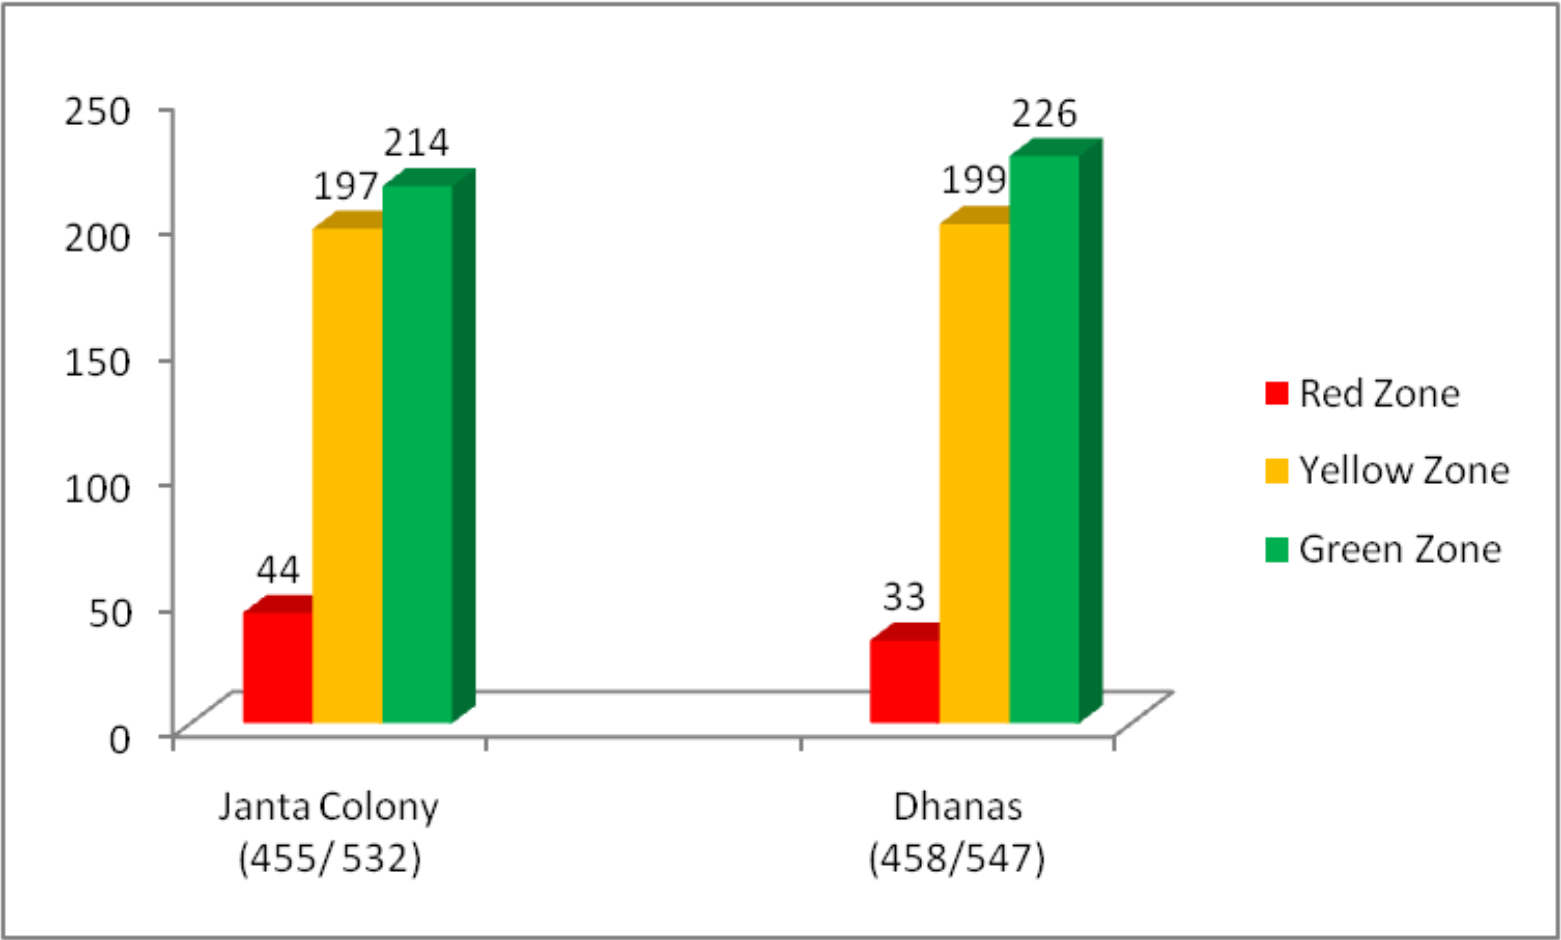

- Total attendance for May was 30, including children from Alambana, as well as pregnant and lactating mothers.
- In this, 8 children were below 5 years of age, 1 was needy, malnourished, a Lactating mother, 1 was an underprivileged and malnourished woman of Janta Colony, and 20 children were under the Alambana Project.
- **PROGRESS REPORT UNDER NIPP PROGRAM:**
 - 1 Child gained weight.
 - 5 children showed no change in weight, and 2 children lost weight due to seasonal illnesses like cough and cold.

EDUCATION PROGRAM

SWAD SCHOOL PROGRESS REPORT

- Class - Pre-Nursery and Nursery
- Class teacher - Mrs Geeta

Aadhya studies in a pre-nursery class. She is making wonderful progress in her new class. It's amazing that with the teacher's constant efforts, she's gone from being quiet and reserved to actively engaging with her classmates. Showing her picture books, flash cards, and toys was a great way to make her feel comfortable and spark her curiosity. Now that she's starting to share and recite poems, it's clear that she's becoming more confident.

- Class - L.K.G
- Class teacher - Mrs. Lata

This month, **Shivansh** has shown noticeable improvement. Previously, he was reluctant to attend school regularly and would often stay at home. After a conversation with his parents, I shared that he has strong potential in his studies and emphasised the importance of regular attendance for learning foundational skills like letters, numbers, rhymes, and building confidence. Since then, Shivansh has started attending school consistently. He now appears happy and confident, and he demonstrates a much more positive attitude toward learning. His progress is encouraging, and with continued support, he is likely to achieve even more.

EDUCATION PROGRAM

SWAD SCHOOL PROGRESS REPORT

- Class - U.K.G
- Class teacher - Mrs. Saroj
- **Sara** is a new student in the UKG class and has joined school for the first time. The primary goal of her teacher was to help her feel comfortable, safe and excited about learning in this new environment. To ease her transition, the teacher began teaching her using picture books and smart class tools, which helped her make the learning experience more engaging and visual. Gradually, Sara began to enjoy her studies. She now feels comfortable in the classroom and shows genuine excitement toward learning. Her written work is also progressing well. She is improving steadily day by day.

- Class - Alambana
- Class teacher - Miss Antima
- **Mahi** is a student in the Alambna class. Initially, she was very shy and had difficulty adjusting to the classroom environment. However, with continuous effort and encouragement from her teacher, she has made remarkable progress. Now, Mahi actively participates in all school activities and has developed a strong liking for school. Her confidence has grown, and she is much more comfortable and engaged in the classroom activities.

ACTIVITIES OF SWAD SCHOOL FOR THIS MONTH

- This month, children enjoyed colouring various themed pictures, enhancing their creativity skills.
- They also participated in Mother's Day activities, making heartfelt cards to express their love and appreciation for their mothers.
